

Triads: The 1st Inversion

ANY ROOT POSITION TRIAD MAY BE INVERTED BY MOVING THE ROOT TO THE TOP.

ALL LETTER NAMES ARE THE SAME, BUT THE ROOT IS ON THE TOP.
This is called the **FIRST INVERSION**.

1st INVERSION TRIADS IN C

Play with RH. Use 1 2 5 on each triad. With the fingers properly spaced for the 1st triad, you need only move the hand up ONE WHITE KEY for each of the following triads.

Play the above with LH ONE OCTAVE LOWER. Use 5 3 1 on each triad.

In the 1st inversion, the ROOT
is always the TOP note
of the INTERVAL OF A 4th!

This interval is a 4th.
This interval is a 3rd.

In the following line, each triad is played first in its ROOT POSITION, then in the 1st INVERSION.

The important trick in reading these triads easily is this:

READ ONLY THE LOWEST NOTE of each triad, then add the upper 2 notes by INTERVAL!

Play with RH.

THE HOKEY-POKEY

All triads down to the 1st double bar on the next page are 1st inversion triads.

After the double bar, root position triads are also included. READ BY INTERVAL!

Slow swing tempo

All of the chords in this piece are 1st inversion triads except three.

Find those three and name them before you play.

The eighth notes may be played long-short.
