

SIX-EIGHT TIME

In six-eight time there are SIX counts to the bar and a *quaver* gets one count. There are TWO accents to the bar, the primary accent falling on the FIRST count and a secondary accent on the FOURTH count.

A dotted-crotchet, of course gets THREE counts in *six-eight time*.

Note to Teachers: When pupils can play these six-eight examples up to tempo they should be taught to count two to the bar.

30. CHEER FOR THE BLUE
