

When the frog *hops*, we hear those *detached* notes again ...the same as the notes in BINGO. This detached sound is called "staccato," and the small dot above or below the note-head is the "staccato dot."

When you play the staccato notes with a little bounce of the hand from the wrist, so that each staccato note sounds short and detached, you will be doing very good.

35. The Frog

Ukrainian Folk Song Arr. by L. Fletcher

Hop! hop! hop! sil - ly lit - tle frog! Hop! hop! hop! all a - long the log;

By the pool frog-gie plays, Through the long sum-mer days, Hop! hop! hop! Hop! hop! hop!

36. Simple Simon

Sim - ple Si - mon, made some stilts, He wore them to the Fair; Sim - ple Si - mon took long steps, In al - most no time he was there!
